

# Please do not sign any petitions!

## What Is Happening?

Leftist democrats are approaching voters in public places with requests to sign petitions for **harmful amendments to the Arizona constitution**. The falsely worded petitions propose to “Make It Easy to Vote” and “Save our Schools”. In fact if they achieve their goals they will have permission to cheat in all future elections and our children will be forced back into their failing public schools.

## What is the Purpose of the Petitions?

LEFTISTS WIN  
CONTROL

### **PETITION #1**

The “Free, Fair and Secure Elections Act” (FFSEA) is a scheme by which **Democrats can fool voters into electing Democrats**. After winning elections in the past the Democrats have selected judges, county and district attorneys to control the justice system **permitting crime and prosecuting their opponents** against the wishes of Arizona voters.

The FFSEA would enshrine in the Arizona Constitution the right to vote early without restrictions or Voter ID, in person or by mail. It allows voters to cast their ballots at voting centers, where anyone in the county can vote, possibly multiple times, instead of being restricted to a local area where neighborhood voters are allowed to vote only once. It would also allow voters to cast a ballot early, through 7 p.m. the day before the election, causing delays counting votes after election day. It will be easier for the drug cartels, fraudsters, and illegal aliens to gain control over Arizona.

STUDENTS LOSE  
CHOICES

### **PETITION #2**

The “Protect Education Act” (PEA) is a **fraudulent attempt by Democrats to take a choice** from parents and their children who call it the “Save Our Schools” campaign

The PEA will limit school choice programs such as charter schools, private and religious schools and ESA (Empowerment Scholarship Account) scholarships awarded to parents to fund choices for children. It will require many of the 100,000 Arizona students who have chosen alternative education, to return to public schools to be indoctrinated by teachers from teacher unions. Students will be allowed to access pornographic materials and be taught Marxist and other ideology unapproved by parents, instead of learning reading, math, science, and life skills.

## How Can You Help?

1. First, decline to sign the petitions.
2. **Then warn your family, friends and neighbors not to sign** for these Democrat schemes to lawfully steal their votes and children.
3. Learn to recognize how Democrats try to cheat. Detect leftist schemes to install big government socialist candidates that support their unpopular programs.
4. Reject Democrat media censorship and propaganda.
5. Start early to inform voters about the 2026 elections. The Democrats have already begun their fight.
6. Unite behind the Republican candidates. Democrats will always unite behind the leftist candidates. Almost all South and Central American governments have been taken over by leftist and communist governments who gained power by dividing their conservative opponents to fight each other. Don't fall in the leftist trap!
7. Help spread the word with this fact sheet before petitions are filled to put these propositions on the 2026 ballot along with millions of dollars of Democrat propaganda for unsuspecting voters.

HOW  
TO  
HELP

**DECLINE TO SIGN!**
